TECHNICAL CARD

FRAME: Support frame in round steel tube \varnothing 22x1,5mm, curved and high-resistance welded.

- Arms: Plastic flexible arms with push fixing.
- Arms: in elliptical steel tube 30x15x1,9mm and round steel tube \varnothing 22x1,5mm, curved and high-resistance welded.

Adjustable glides or specific dual face castors (for versions R).

All metal parts are painted by epoxy and non-toxic powders or chromed.

TABLET: anti-panic writing tablet with anti-friction aluminium joint and steel painted connection-plate. Black shaped writing tablet in flame retardant high resistance HPL, waterproof, anti-scratches.

Rotation point in round steel plate welded to the frame.

Metal parts painted by epoxy non toxic powders or chromed.

SEAT: In copolymer, ethylene polypropylene with mineral charge, UV resistance, 100% recyclable, non-toxic. colours available: black, white.

Seat is always upholstered with flame retardant expanded material 40mm thick and RC 40 density.

Upholstery as per our fabric folders.

BACK:

For DELFI and BRIO: In copolymer, ethylene polypropylene with mineral charge, UV resistance, 100% recyclable, non-toxic. Various colours available.

For upholstered versions, counter back padded and upholstered with flame retardant expanded material 12mm thick and RC 40 density.

For NET: In black or white mesh insert and fixed by screws to the outer edge in copolymer black or white.

Flame retardant fabrics as per our folders.

Resistance, stability and dimension as per European Standards.

Product recycling as per EPD (Environmental Product Declaration) according to UNI EN ISO 14021

FICHE TECHNIQUE

STRUCTURE: Structure portante en tube métallique \varnothing mm. 22x1,5 tourné et soudé a haute resistance

- Accoudoirs: plastic flexible accoudoirs
- Accoudoirs: en tube métallique elliptique 30x15x1,9mm et rond métal tube \varnothing mm. 22x1,5, tourné et soudé à haute resistance.

Pieds réglables ou roulettes (pour version R)

Toutes les parties métalliques sont vernies à poudre époxy-polyester atoxiques, ou chromées.

TABLETTE: Antipanique avec junction en aluminium nettoyé antiblocage et attache tablette en acier verni.

Tablette en Laminée à haute resistance HPL coloris noir, non feu, resistente à l'eau, et antiégratignure.

Perne de connexion en acier soudé à la structure

Parties métalliques vernies à poudre époxy-polyester atoxiques ou chromées.

ASSISE: En copolymer ethylene polypropilene avec charge mineral, atoxiques et recyclable au 100% et anti U. V., disponibles en couleur noir ou blanc.

Assise rembourrés avec mousse dilaté et non feu epaisseur 40 mm., densité RC 40.

Revetements ignifuges selon nos planches tissus

DOSSIER:

POUR DELFI et BRIO: En copolymer ehtylene polypropilene avec charge mineral en different couleurs, atoxiques et recyclable au 100% et anti U. V.

Pour les versions avec revetement utilisation de contrepoques modelés rembourrés avec materiel dilaté et non feu epaisseur 12 mm., densité RC 40.

Revetements disponibles selon nos planches tissus.

POUR NET: structure support maille en copolymer blanc ou noir, maille elastique et transpirant fermée avec vises sur le perimetre et disponible en blanc ou noir.

Revetements ignifuges selon nos planches tissus

Resistance a la fatigue, stabilité et dimensions selon le normes Europeennes.

Produit Recyclable EPD (Environmental Product Declaration) selon la norme UNI EN ISO 14021
